PIANO KEY STICKERS

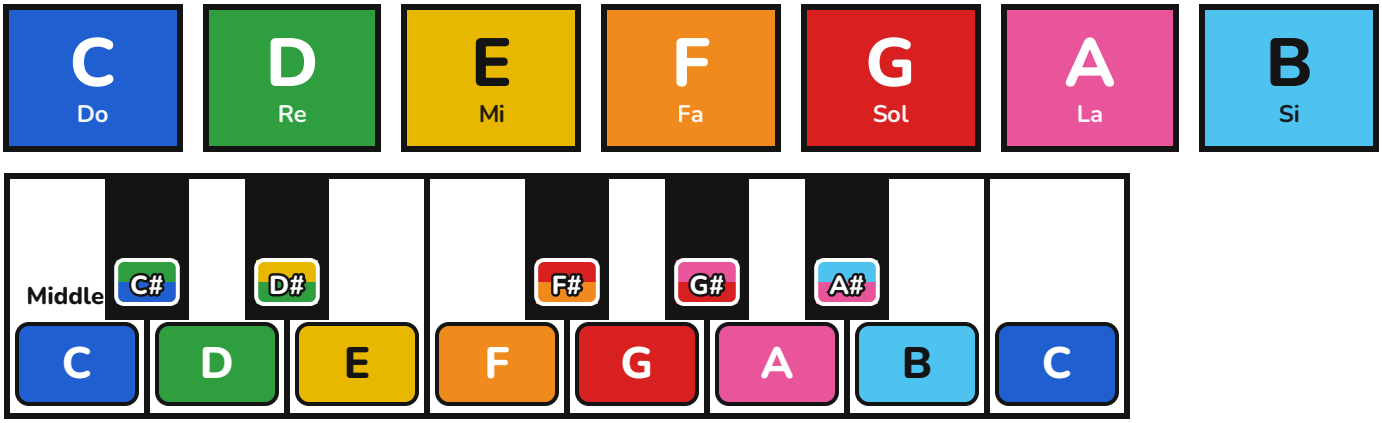

COLOR + BLACK & WHITE

FOR 61, 76 & 88 KEYS

CUT & STICK

PIANO KEY STICKERS

Every note has its own **color** and **letter**: the same Soundfalya colors used in all our color-coded sheet music, so the keyboard and the music speak the same language.

Inside: a full-color sheet and a black & white sheet to color yourself. Each sheet has 35 white-key stickers (5 octaves) and 30 two-color black-key stickers. That covers a 61-key keyboard; print two sheets for 76 or 88 keys.

Step by step

1. **Print** on full-sheet sticker paper, Letter or A4, at **100% / Actual size** (not "Fit to page").
2. **Let the ink dry**, then **cut along the thin gray lines**.
3. **Start with Middle C** (the sticker with a star), then place D, E, F, G, A, B to the right. Keep going one octave at a time, on the **front half** of each key.
4. **Black keys**: the lower half matches the white key on the left, the upper half the one on the right (C# on the C color, D♭ on the D color).

Tips

- Removable sticker paper peels off cleanly later.
- No sticker paper? Use plain paper and a little removable tape.
- Prefer to save ink? Print the black & white sheet. **You can paint it yourself!**

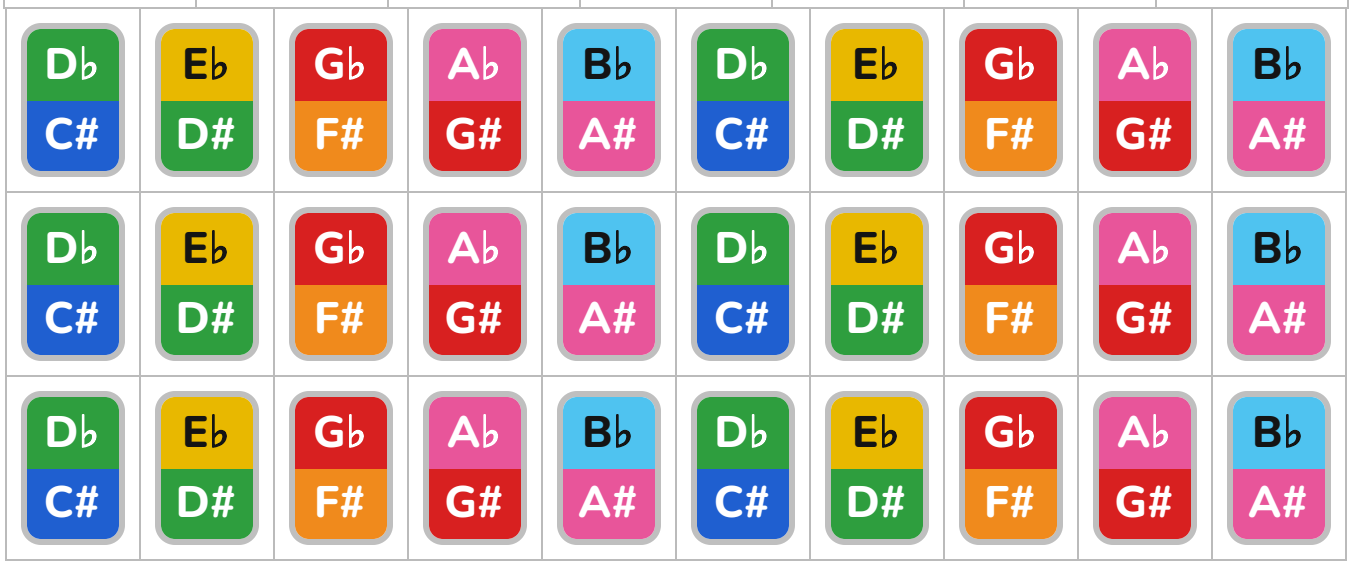

Take care

- Never use glue or permanent labels on piano keys.
- Peel slowly and wipe with a soft, slightly damp cloth.
- Not for antique or ivory keys.
- Small parts: keep away from very young children.
