TWINKLE TWINKLE LITTLE STAR

EASY PIANO LEARNING KIT

COLOR · LETTERS · STICKERS

START HERE

WELCOME TO YOUR KIT

This kit helps you play the lullaby everyone knows, **Twinkle Twinkle Little Star**, even if you have never read music before. Every note has a **color** and a **letter**, and the same colors appear on the keyboard guide and on the key stickers.

The Soundfalya Color System

C	D	E	F	G	A	B
Do	Re	Mi	Fa	Sol	La	Si

D♭ / C#	E♭ / D#	G♭ / F#	A♭ / G#	B♭ / A#

Black keys (sharps and flats) mix the colors of their two neighbors: the lower note's color below, the upper note's color above. D# (= E♭) is green below and yellow above. Solfège names (Do, Re, Mi) are shown for players who learned that way.

What's inside

- Keyboard guide & 3 hand positions
- Score A: **Color-Coded** (colors, letters, finger numbers)
- Score B: **Letter Notes** (black notes + letters)
- Score C: **Standard Notation**
- Full sheet of key stickers, ready for sticker paper (color and black & white)
- Performance guide
- 7-day practice tracker

How to use it

- Put the stickers on your keys (pages 7–8).
- Find your hand positions (page 3).
- Start with Score A. When the colors feel easy, try Score B, then Score C.
- Practice a little every day and tick the tracker.

Printing in black & white? No problem: every note keeps its letter.

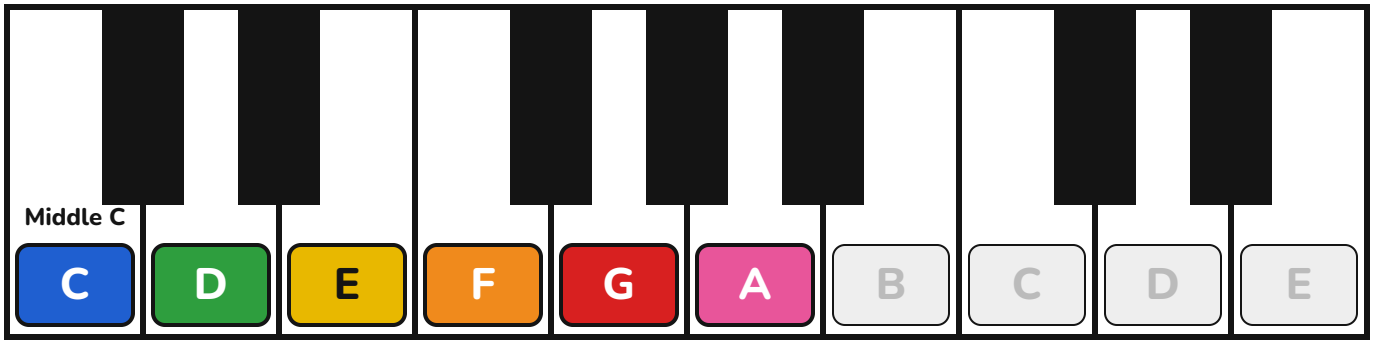

Beginner · Full Melody | **12 bars · 4/4 · Right hand only · Easy key: C major**

FIND YOUR NOTES

KEYBOARD GUIDE

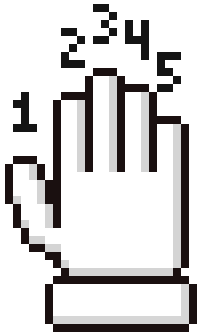

These are the keys you need. Find **Middle C** first: it is the C closest to the middle of your piano, just left of a group of two black keys.

Colored keys are used in this piece. You only need six white keys, from Middle C up to A.

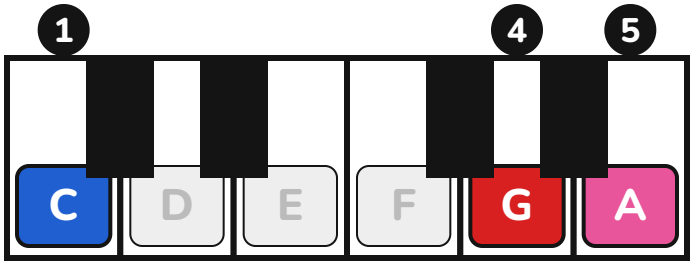

Right-hand finger numbers

Thumb = **1**, pointer = **2**, middle = **3**, ring = **4**, little finger = **5**. The small numbers above the notes in Scores A and B tell you which finger to use.

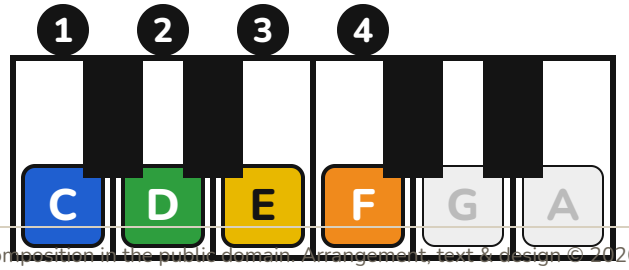

Three hand positions

Position 1 · bars 1–2, 9–10 Thumb on Middle C. Open your hand: finger 4 on G, finger 5 on A.

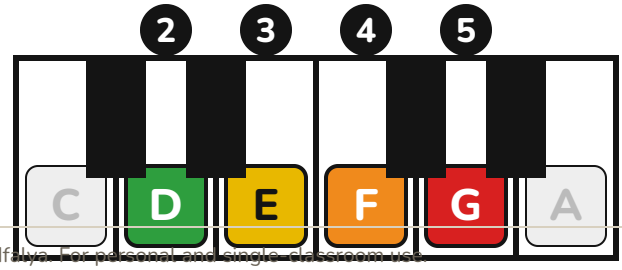

Position 2 · bars 3–4, 11–12

Close your hand back to C position and walk down from F to C.

Position 2 · bars 5–8

Same position: start with finger 5 on G and walk down to D.

SCORE A

Twinkle Twinkle Little Star

Traditional
Arr. Soundfalya

Color-Coded · Beginner · Full Melody

Colors match the keyboard guide and stickers. Letters under each note, finger numbers above.

Composition in the public domain. Arrangement, text & design © 2026 Soundfalya. For personal and single-classroom use.

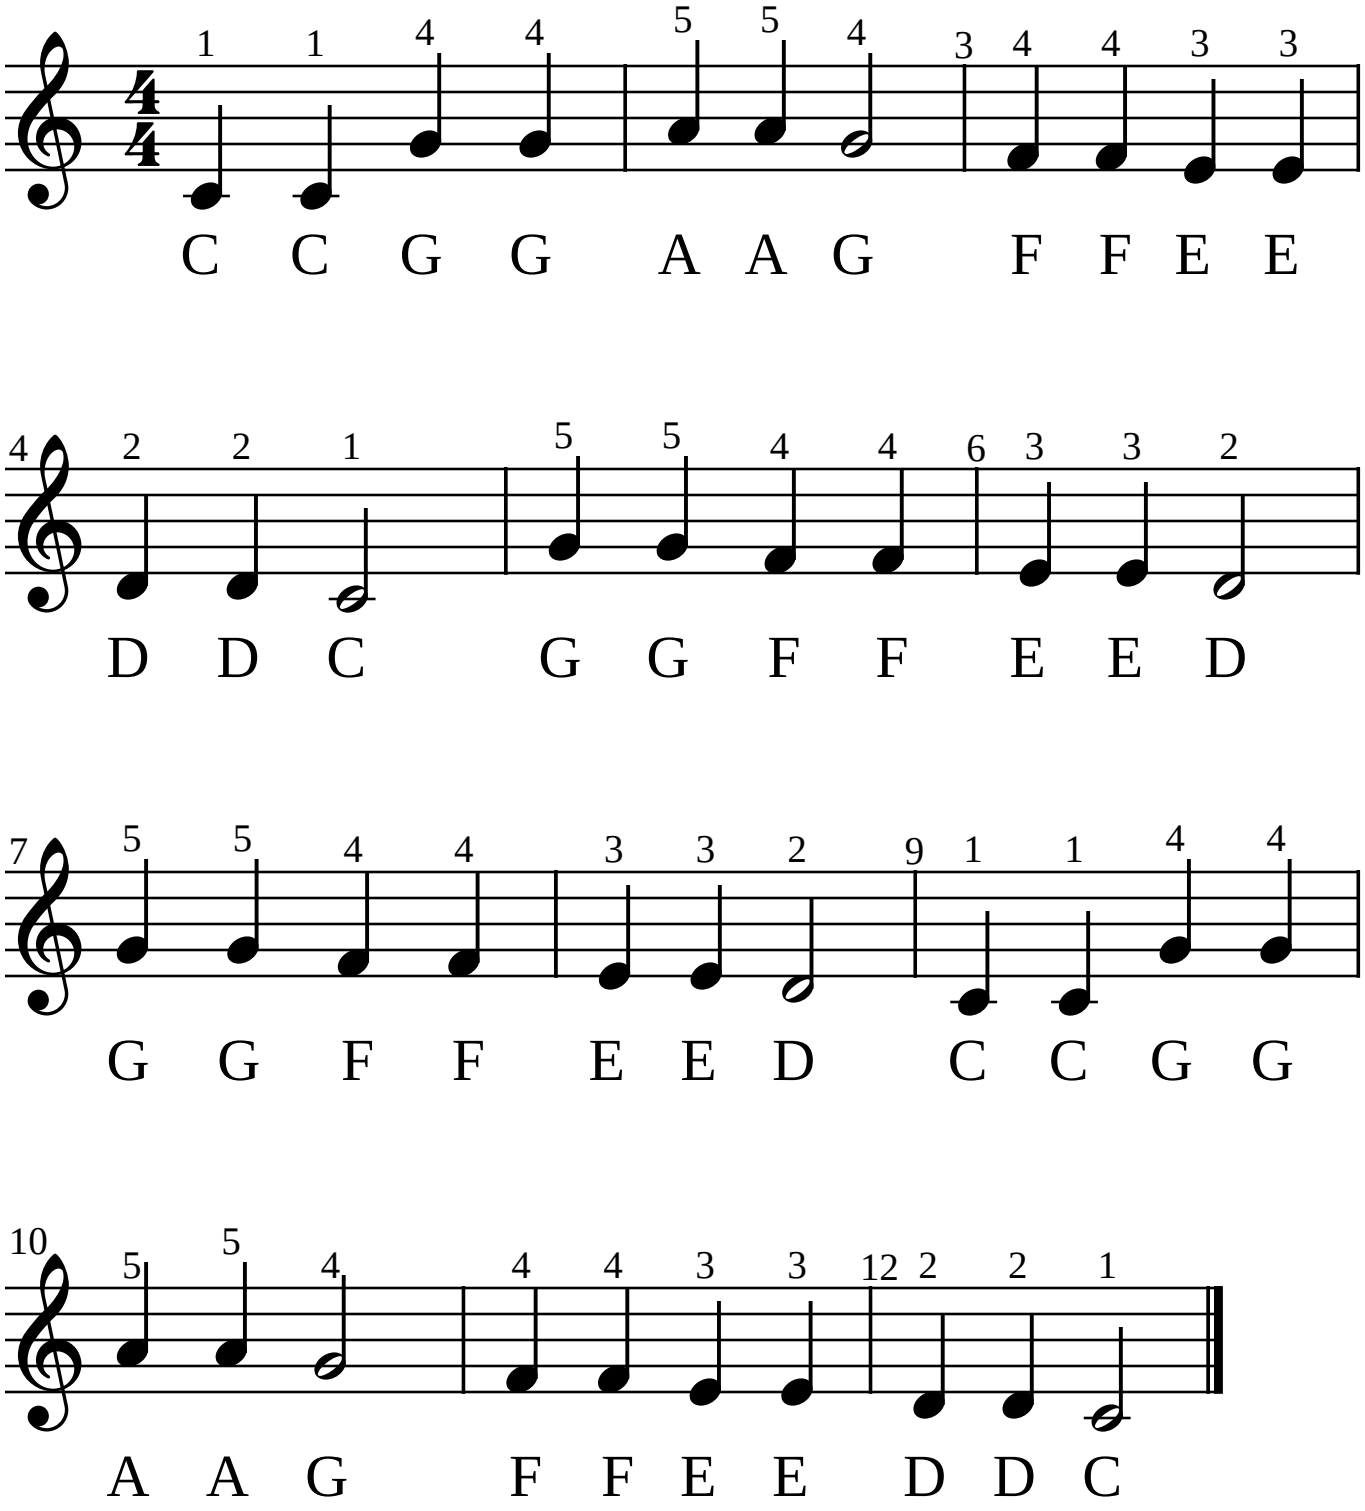

SCORE B

Twinkle Twinkle Little Star

Traditional
Arr. Soundfalya

Letter Notes · Beginner · Full Melody

The next step: black notes with letter names and finger numbers.

Composition in the public domain. Arrangement, text & design © 2026 Soundfalya. For personal and single-classroom use.

SCORE C

Twinkle Twinkle Little Star

Traditional
Arr. Soundfalya

Standard Notation · Beginner · Full Melody

The real thing. Try it once Scores A and B feel easy.

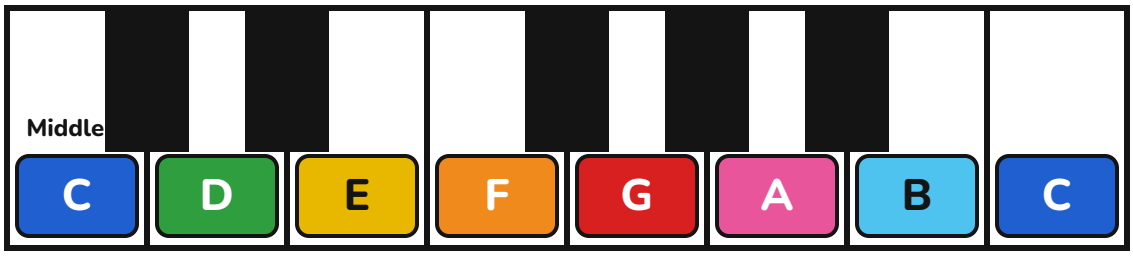

Composition in the public domain. Arrangement, text & design © 2026 Soundfalya. For personal and single-classroom use.

CUT & STICK

KEY STICKERS: HOW TO

The next page is a full sheet of note stickers. Every color matches your scores, so the keyboard and the music speak the same language.

This is how your keys will look: one sticker on the front part of each white key.

Step by step

1. **Print the sticker sheet** (next page) on full-sheet sticker paper, Letter or A4. In the print settings choose **100% / Actual size**, not "Fit to page".
2. **Let the ink dry** for a few minutes, then **cut along the thin gray lines** with scissors or a paper trimmer.
3. **Start with Middle C**: use the sticker marked with a star. Then place D, E, F, G, A, B on the next white keys to the right.
4. **Keep going** with the other color rows, one octave at a time. Put each sticker on the **front half of the key**, away from the edge, so your fingers still feel the key.
5. **Black keys** use the small two-color stickers: the lower half matches the white key on the left, the upper half the white key on the right. Each name sits on its own color: C# on the C color, D♭ on the D color. Place them on top of the black key, near the front.

Tips

- Removable sticker paper is best: it peels off cleanly later.
- No sticker paper? Print on plain paper and hold each label with a small piece of removable tape.
- Prefer to save ink? Use the black & white row. **You can paint it yourself!**

Take care

- Never use glue or permanent labels on piano keys.
- To remove, peel slowly and wipe the key with a soft, slightly damp cloth.
- Not for antique or ivory keys.
- Stickers are small parts: keep them away from very young children.

PLAY IT WELL

PERFORMANCE GUIDE

About the piece

The melody comes from a French song, *Ah! vous dirai-je, maman*, first printed in the 1760s. Mozart wrote twelve famous piano variations on it, and in 1806 the English poet Jane Taylor wrote the words "Twinkle, twinkle, little star". The same tune is used for the Alphabet Song and Baa, Baa, Black Sheep.

How it should feel

Bright, gentle and calm, like a lullaby. Every line is a little question and answer: play the repeated notes evenly and let each long note at the end of a bar rest for its full two beats.

Counting

The piece is in **4/4**: four beats in every bar. Count **"1 2 3 4"**. Most notes are quarter notes (1 beat each). The open note at the end of every second bar is a half note: hold it for **2 beats**.

Sit well, play better

- Sit on the front half of the bench, feet flat on the floor.
- Elbows slightly in front of your body, at the height of the keys.
- Round your fingers as if holding a small ball. Play on the fingertips.
- Relax your shoulders. If anything feels tight, stop, shake your hand, and start again.

Step-by-step plan

1. Sing or hum the song while you count "1 2 3 4".
2. Play bars 1–2 in Position 1: thumb on C, fingers 4 and 5 on G and A.
3. Bars 3–4: close your hand to C position and walk down F, E, D, C.
4. Bars 5–8: the same short line played twice, from G down to D.
5. Bars 9–12 are the same as bars 1–4. Now join the whole song.
6. Raise the speed only when it sounds even. Slow and smooth beats fast and bumpy.

TRACK YOUR PROGRESS

7-DAY PRACTICE TRACKER

Practice 10 minutes a day. Use a free metronome app and follow the suggested speed (beats per minute). Tick a box each time you play the section without stopping.

Day	What I practiced	Speed (BPM)	Bars 1–4	Bars 5–8	Whole piece
Day 1		60	☐	☐	☐
Day 2		60	☐	☐	☐
Day 3		66	☐	☐	☐
Day 4		72	☐	☐	☐
Day 5		80	☐	☐	☐
Day 6		88	☐	☐	☐
Day 7		96	☐	☐	☐
